PROFESSIONAL SUMMARY

Passionate, bilingual, and detail-oriented Full Stack Developer with a foundation in Angular and Java development with 1200+ training hours.

TECHNICAL SKILLS

Languages: JavaScript, Java, SQL
Technologies: Angular, TypeScript, React, Node.js, mySQL, Oracle DB, PostgreSQL, HTML/CSS, Bootstrap, Material UI, Spring Boot, Spring Data JPA, Maven, Unit Testing (Junit, Mockito, Cucumber), Jasmine Testing, Postman, Git, Github, Canva, Docker, Rally, Jenkins, GitLab, VMWare Fusion, AWS
IT Skills: Mac OS, Linux OS, Windows OS, Hardware & Software Troubleshooting, Network & Cybersecurity
Certifications: CompTIA A+ (Core 1 Passed- Aug 2024 & Core 2 in Progress Oct 2024), Front-End Development Certificate, Bronx Community College (2024), General Assembly Full Stack Software Engineering Immersive (2023), Generation USA Full Stack Java Developer (2022), W3Schools Certified JavaScript Developer (2022)

PROFESSIONAL EXPERIENCE

Interapt | Remote | December 2023 – Present
Junior Software Engineer/Apprentice @ CVS Health

- Delivered **90+** stories to date with **80%** completed ahead of sprint deadlines by developing and implementing full-stack solutions, addressing frontend and backend stories.
- Improved code quality and team efficiency by **30%** as the go-to expert for resolving integration testing errors and sharing best practices.
- Streamlined onboarding by training new team members on Rally, Jenkins, GitLab, codebase setup, project functionality, and best practices, ensuring a smooth transition and faster productivity.

Angular/Jasmine Testing, Java, Docker, Spring Boot, Mockito/Junit Testing, Oracle DB, Rally, Jenkins

Nia Entertainment | Remote | April 2024 – July 2024
Software Developer

- Implemented an e-commerce store using Snipcart for automated inventory management, shipping, and order notification, empowering the client to manage the store independently and reducing maintenance costs by **40%**.
- Deployed websites on cPanel using Vite.js for efficient build and deployment processes, reducing deployment time by **50%** and ensuring a smooth transition to live environments.
- Designed and developed mobile-responsive website using Tailwind, HTML, CSS, and JavaScript, optimizing user experience across desktop and mobile platforms, leading to a **30%** increase in user engagement.

Tailwind UI, Vite.js, Snipcart.js, cPanel, GoDaddy, JavaScript

SOFTWARE DEVELOPMENT EXPEREINCE / PROJECTS

Interapt/General Assembly Software Engineering Immersive | Remote | July 2023 – October 2023
Software Engineering Immersive Fellow

- Participated in 13-week Software Engineering Immersive program, gaining hands-on experience in software development and enhancing technical skills.
  - DermiCycle **Frontend** / **Backend**: Designed and developed a full stack skincare cycling app for users to track their skincare products and skin care routine.
    Angular, HTML/CSS, Java, SpringBoot, Mockito/JUnitTesting, Git, Github

Retro-Board Project: Developed a Scrum-based Retrospective Board web app for team retrospectives, featuring categorized items and interactive elements such as voting for liked and disliked items.
React, HTML/CSS, Visual Studio, Git, Github

EDUCATION

Florida International University | Sweetwater, Florida   B.S. in Recreation & Sports Management

ADDITIONAL TRAINING

AWS Cloud Computing & Security Training | Remote | August 2024 – Present
Queensborough Community College
AWS Student
- Gaining hands-on experience in AWS Cloud computing concepts, developing, implementing, and maintaining cloud solutions.
- Working with cloud services to ensure system performance and reliability.
  AWS Cloud Buckets, Cloud Security, Networking, Storage, Auto Scaling & Monitoring

IT Technical Practical Lab - CompTIA A+ | Bronx, NY | June 2024 – Present
Bronx Community College
IT Student
- Gaining hands-on experience in hardware installation, OS, networking, and cybersecurity within a professional IT lab.
- Skilled in troubleshooting, technical support, and system optimization. Developing and processing documentation for system architecture, configurations, and deployments.
  Hardware, Software Installation, Virtual Machine, Networking, OS

Front-End Development Training | Bronx, NY | November 2023 – February 2024
Bronx Community College
Front-End Development Student
- Built responsive websites using HTML, CSS, and JavaScript. Worked with frameworks like React to develop dynamic user interfaces.
  HTML/CSS, JavaScript, React

JavaScript Fundamentals | Remote | October 2023 – January 2024
CanCode Communities
Software Engineering Student
- Participated in a 12-week course gaining hands-on experience in JavaScript fundamental concepts.
  JavaScript, Node.js, Quokka

JavaScript Frameworks | Remote | July 2023 – September 2023
CanCode Communities
Software Engineering Student
- Participated in 12-week course gaining hands-on experience in React and TypeScript concepts.
  React, Typescript, Jasmine Testing

Introduction to JavaScript | Remote | July 2023 – August 2023
Code First Girls UK
Kick Starter Course Student
- Participated in 8-week course gaining hands-on experience in JavaScript introductory concepts and created a final group project of an interactive meal guide generator.
  HTM/CSS, JavaScript

Full Stack Java Developer Program | Remote | September 2022 – December 2022
Generation USA
Full Stack Trainee
- Participated in 14-week course gaining hands-on experience in HTML/CSS, Bootstrap, JavaScript, and Java fundamental concepts in full stack java development.
  Java, HTML/CSS, Bootstrap, JavaScript, Mockito, Junit
